

Сергей Львович Гроховский

(22 февраля 1950г. — 24 августа 2018г.)

Ушел из жизни **Сергей Львович Гроховский**, старший научный сотрудник **Института молекулярной биологии им. В.А. Энгельгардта РАН**.

С 1957 по 1965 учился в 88 школе г. Москвы. С 1967 по 1972 на химическом факультете МГУ. В 1977 году защитил кандидатскую диссертацию по химии на тему: "Синтез аналогов дистамицина А и исследование их взаимодействия с ДНК".

С 1972 года работал в Институте молекулярной биологии им. В.А. Энгельгардта РАН.

[Stanislav Levchenko](#) После окончания химфака в 79 году, я распределился в ИМБ в лабораторию химии белкового синтеза в группу Жузе А.Л., где уже работали Сергей Гроховский, Сергей Никитин и Саша Хорлин. Мой рабочий стол располагался рядом со столом Сергея Гроховского в маленькой одномодульной комнате. Я проработал там 3 года, и во время работы мы много беседовали с Сергеем. Он стал для меня что-то вроде старшего товарища, наставника по жизни, а не по работе, так как у нас были разные тематики. Он был не сильно старше меня, это сближало, но при этом заметно опытнее по жизни. Он много рассказывал про свои походы по порожистым рекам Полярного Урала и

Карелии, фотография, на лабораторные праздники он готовил клюковку, познакомил меня с другой литературой: Набоков, Томас Манн, Гессе, Замятин, Оруэлл, Саша Черный, давал почитать. Его спокойная и несколько ироническая манера говорить привлекала меня. После окончания срока молодого специалиста я ушел из ИМБ, и связь с Сергеем прервалась. В некоторой степени его рассказы про водный туризм повлияли на меня так, что я сам занялся им и полюбил север. Вступление в ФБ снова нас соединило. Я считаю, что знакомство с Сергеем было большой удачей для меня. Он заметно расширил мой кругозор в разных смыслах.

ZHUZE, AL; GURSKII, GV.
A SYNTHETIC ZINC-CHELATING PEPTIDE COMPETES WITH ANTIBIOTICS FOR
BINDING-SITES IN THE DNA MINOR-GROOVE
MOLECULAR BIOLOGY 29(2), 204-211 (1995)
76. SUROVAYA, AN; GROKHOVSKII, SL; BRUSOV, RV; LYSOV, YP; ZHUZE, AL;
GURSKII, GV.
DESIGN OF DE-NOVO DNA-BINDING PEPTIDES WITH THE BETA-STRAND-TURN-
BETA-STRAND MOTIF FOR DNA-SEQUENCE RECOGNITION
MOLECULAR BIOLOGY 28(6), 859-868 (1994)
77. GROKHOVSKII, SL; SUROVAYA, AN; ZHUZE, AL; GURSKII, GV.
INTERACTION WITH DNA OF A SYNTHETIC PEPTIDE-CONTAINING A PART OF
THE DNA-BINDING DOMAIN OF TRANSCRIPTION ACTIVATOR V-JUN
MOLECULAR BIOLOGY 28(5), 724-729 (1994)
78. GROKHOVSKII, SL; SUROVAYA, AN; ZHUZE, AL; GURSKII, GV.
SYNTHESIS AND BINDING TO DNA OF 2 PEPTIDES MODELING THE DNA-BINDING

DOMAIN OF TRANSCRIPTION ACTIVATOR V-JUN

MOLECULAR BIOLOGY 28(5), 730-737 (1994)

79. KHOKHLOV, DN; BRUSOV, RV; GROKHOVSKII, SL; ZHUZE, AL; SUROVAYA, AN; GURSKII, GV.
INTERACTION BETWEEN DNA AND A SYNTHETIC ZINC-BINDING PEPTIDE
MOLECULAR BIOLOGY 28(1), 58-62 (1994)
80. Grokhovskii, S L; Surovaia, A N; Zhuze, A L; Gurskii, G V.
Interaction of a synthetic peptide, containing a part of the DNA-binding domain of the v-jun transcription activator, with DNA.
Molekuliarnaia biologiiia 28(5), - (1994)
81. Surovaia, A N; Grokhovskii, S L; Brusov, R V; Lysov, Iu P; Zhuze, A L; Gurskii, G V.
Design of de novo specific DNA-binding peptides, using the motif beta-chain-turn-beta-chain for recognizing a nucleotide sequence in DNA.
Molekuliarnaia biologiiia 28(6), - (1994)
82. NIKOLAEV, VA; SUROVAYA, AN; SIDOROVA, NY; GROKHOVSKII, SL; ZASEDATELEV, AS; GURSKII, GV; ZHUZE, AL.
DNA-BASE-PAIR SEQUENCE-SPECIFIC LIGANDS .10. SYNTHESIS AND BINDING TO DNA OF NETROPSIN ANALOGS CONTAINING A COPPER-CHELATING PEPTIDE
MOLECULAR BIOLOGY 27(1), 117-128 (1993)
83. Nikolaev, V A; Surovaia, A N; Sidorova, N Iu; Grokhovskii, S L; Zasedatelev, A S; Gurskii, G V; Zhuze, A L.
Ligands with affinity to specific sequences of DNA base pairs. X. Synthesis and binding of netropsin analogs, containing a chelating copper ion peptide, with DNA.
Molekuliarnaia biologiiia 27(1), - (1993)
84. GROKHOVSKII, SL; NIKOLAEV, VA; ZUBAREV, VE; SUROVAYA, AN; ZHUZE, AL; CHERNOV, BK; SIDOROVA, NY; ZASEDATELEV, AS; GURSKII, GV.
SPECIFIC DNA CLEAVAGE BY A NETROPSIN ANALOG CONTAINING A COPPER(II)-CHELATING PEPTIDE GLY-GLY-HIS
MOLECULAR BIOLOGY 26(6), 839-855 (1992)

85. GROKHOVSKY, SL; GOTTIKH, BP; ZHUZE, AL.
DNA-BASE PAIR SEQUENCE SPECIFIC LIGANDS .9. SYNTHESIS OF DISTAMYCIN-
A AND NETROPSIN ANALOGS CONTAINING A SARCOLYSIN RESIDUE OR A
PLATINUM(II) ATOM
BIOORGANICHESKAYA KHIMIYA 18(4), 570-583 (1992)
86. GROKHOVSKY, SL; SUROVAYA, AN; BRUSSOV, RV; CHERNOV, BK; SIDOROVA,
NY; GURSKY, GV.
DESIGN AND SYNTHESIS OF SEQUENCE-SPECIFIC DNA-BINDING PEPTIDES
JOURNAL OF BIOMOLECULAR STRUCTURE & DYNAMICS 8(5), 989-1025 (1991)
87. GROKHOVSKY, SL; ZUBAREV, VE.
SEQUENCE-SPECIFIC CLEAVAGE OF DOUBLE-STRANDED DNA CAUSED BY X-
RAY IONIZATION OF THE PLATINUM ATOM IN THE PT-BIS-NETROPSIN-DNA
COMPLEX
NUCLEIC ACIDS RESEARCH 19(2), 257-264 (1991)
88. GROKHOVSKII, SL; ZUBAREV, VE.
SEQUENCE-SPECIFIC DOUBLE-STRAND CLEAVAGE OF DNA INDUCED BY X-RAY
IONIZATION OF PT-ATOMS
DOKLADY AKADEMII NAUK SSSR 313(6), 1500-1504 (1990)
89. LEINSOO, TA; NIKOLAEV, VA; GROKHOVSKII, SL; SUROVAYA, AN; SIDOROVA, NY;
STRELTSOV, SA; ZASEDATELEV, AS; ZHUZE, AL; GURSKII, GV.
SYNTHETIC DNA-BINDING LIGANDS CONTAINING REACTION CENTERS SPECIFIC
FOR AT AND GC BASE-PAIRS
MOLECULAR BIOLOGY 23(6), 1274-1292 (1989)
90. GROKHOVSKII, SL; SUROVAYA, AN; SIDOROVA, NY; GURSKII, GV.
SYNTHESIS OF A NONLINEAR DNA-BINDING PEPTIDE WITH SPECIFICITY
DETERMINANTS CLOSE TO THOSE OF THE 434 CRO REPRESSOR
MOLECULAR BIOLOGY 23(6), 1226-1244 (1989)
91. PANYUTICH, AV; RUBIKAITE, BI; VOITENOK, NN; SHIDLOVSKAYA, EA;
GROKHOVSKY, SL; ZHUZE, AL; FAVOROVA, OO.
MONOCLONAL-ANTIBODIES TO AN ARTIFICIAL IMMUNOGEN SPECIFICALLY

IDENTIFYING PHOSPHOTYROSINE-CONTAINING PROTEINS

BIOORGANICHESKAYA KHIMIYA 15(8), 1060-1069 (1989)

92. GROKHOVSKII, SL; SUROVAYA, AN; SIDOROVA, NY; VOTAVOVA, H; SPONAR, J; FRICH, I; GURSKII, GV.
DESIGN AND SYNTHESIS OF PEPTIDES CAPABLE OF BINDING SPECIFICALLY TO DNA
MOLECULAR BIOLOGY 22(5), 1056-1073 (1988)
93. LEINSOO, TA; NIKOLAEV, VA; GROKHOVSKII, SL; STRELTSOV, SA; ZASEDATELEV, AS; ZHUZE, AL; GURSKII, GV.
ATTACHMENT OF TRIVALINE TO A NETROPSIN ANALOG CHANGES THE SPECIFICITY OF ITS BINDING TO DNA
MOLECULAR BIOLOGY 22(1), 134-148 (1988)
94. Grokhovskii, S L; Surovaia, A N; Sidorova, N lu; Votavova, H; Sponar, J.
Design and synthesis of peptides capable of specific binding to DNA.
Molekuliarnaia biologiiia 22(5), - (1988)
95. Leinsoo, T A; Nikolaev, V A; Grokhovskii, S L; Strel'tsov, S A; Zasedatelev, A S.
[Attachment of trivaline changes the specificity of binding of netropsin analogs with DNA].
Molekuliarnaia biologiiia 22(1), - (1988)
96. KNOBLOCH, J; SCHREIBER, M; GROKHOVSKY, S; SCHERF, A.
SPECIFIC AND NONSPECIFIC IMMUNODIAGNOSTIC PROPERTIES OF RECOMBINANT AND SYNTHETIC PLASMODIUM-FALCIPARUM ANTIGENS
EUROPEAN JOURNAL OF CLINICAL MICROBIOLOGY & INFECTIOUS DISEASES 6(5), 547-551 (1987)
97. BORODULIN, VB; ZASEDATELEV, AS; GURSKII, GV; GROKHOVSKII, SL; GOTTIKH, BP; ZHUZE, AL.
LEXITROPSIN DNA INTERACTION - NEGATIVE RESULT IN THE ATTEMPT TO DETECT COMPLEX AT GC-BINDING SPECIFICITY
DOKLADY AKADEMII NAUK SSSR 294(5), 1243-1247 (1987)

98. STANCHEV, BS; GROKHOVSKII, SL; KHORLIN, AA; GOTTIKH, BP; ZHUZE, AL;
SKAMROV, AV; BIBILASHVILI, RS.
NETROPSIN, DISTAMYCIN-A, BIS-NETROPSINS AS SELECTIVE INHIBITORS OF
THE EFFECT OF RESTRICTASES AND DNASE-I
MOLECULAR BIOLOGY 20(6), 1324-1333 (1986)
99. BORODULIN, VB; ZASEDATELEV, AS; GURSKII, GV; GROKHOVSKII, SL; GOTTIKH,
BP; ZHUZE, AL.
INTERACTION OF LIGAND OF THE BIS-NETROPSIN TYPE WITH
POLY(DA).POLY(DT) - OPTICAL, STRUCTURAL, AND ENERGETIC
CHARACTERISTICS OF AT-SPECIFIC BINDING
MOLECULAR BIOLOGY 20(4), 929-934 (1986)
100. Stanchev, B S; Grokhovskii, S L; Khorlin, A A; Gottikh, B P; Zhuze, A L.
[Netropsin, distamycin A, bis-netropsins as selective inhibitors of restrictases and DNase
I].
Molekuliarnaia biologiiia 20(6), - (1986)
101. KHARATISHVILI, MG; ESIPOVA, NG; ZHUZE, AL; GROKHOVSKY, SL;
ANDRONIKASHVILI, EL.
FORMATION OF LEFT HELIX UNDER SIMULTANEOUS EFFECT ON POLY[D(G-C)]
OF BIS-NETROPSIN AND IONS
BIOFIZIKA 30(4), 701-703 (1985)
102. SKAMROV, AV; RYBALKIN, IN; BIBILASHVILI, RS; GOTTIKH, BP; GROKHOVSKII, SL;
GURSKII, GV; ZHUZE, AL; ZASEDATELEV, AS; NECHIPURENKO, YD; KHORLIN, AA.
SPECIFIC PROTECTION OF DNA FROM THE ACTION OF DNASE I BY DISTAMYCIN
A, NETROPSIN, AND BIS-NETROPSINS
MOLECULAR BIOLOGY 19(1), 153-167 (1985)
103. Gursky, G V; Zasedatelev, A S; Zhuze, A L; Khorlin, A A; Grokhovsky, S L; Streltsov, S
A; Surovaya, A N; Nikitin, S M; Krylov, A S; Retchinsky, V O; Mikhailov, M V;
Beabealashvili, R S; Gottikh, B P.
Synthetic sequence-specific ligands.
Cold Spring Harbor symposia on quantitative biology 47 Pt 1, - (1983)

104. GROKHOVSKY, SL; ZHUZE, AL; GOTTIKH, BP.
DNA-BASE PAIR SEQUENCE SPECIFIC LIGANDS .7. SYNTHESIS OF THE
DISTAMYCIN-A ANALOGS CONSISTING OF 2 OR 3 N-
ISOAMYLPYRROLCARBOXAMIDE FRAGMENTS AND THE ANALOG CONTAINING
METHYLAMIDE BONDS IN THE MOLECULE
BIOORGANICHESKAYA KHIMIYA 8(8), 1070-1076 (1982)
