

Солдатенков Анатолий Тимофеевич

(21 декабря 1938 г. – октябрь 2016 г.)

Солдатенков Анатолий Тимофеевич - российский учёный, специалист в области химии гетероциклических соединений.

Закончил МИТХТ по кафедре технологии нефтехимического синтеза и искусственного жидкого топлива. Был направлен в организуемый Советским Союзом в начале 1960-х Университет дружбы народов.

Участвовал в командировках советских специалистов (с целью создания и помощи науке и химическому производству) в Индию и страны Африки.

В 1985 г. присвоена степень доктора химических наук

В 1987 г. присвоено учёное звание профессора

На кафедре органической химии УДН занимался исследованиями в области биологически активных азотсодержащих гетероциклов, в частности производных пиридина, краун- и азакраун-эфиров.

Число публикаций - 156, в т.ч. **КНИГИ**:
