

Абросимов Владимир Ксенофонтович

(23 ноября 1940г. - 11 марта 2015г.)

Ушел из жизни доктор химических наук, профессор, заслуженный деятель науки Российской Федерации, почетный работник высшего профессионального образования Российской Федерации, заведующий лабораторией ИХР РАН Владимир Ксенофонтович АБРОСИМОВ.

Абросимов Владимир Ксенофонтович родился в 1940 г. в г. Иванове.

В 1963 г. окончил Ивановский химико-технологический институт. В 1968 г. защитил кандидатскую диссертацию. В Ивановском Химтехе, складывалась его научная и педагогическая карьера – аспирант, заведующий лабораторией, ассистент, доцент кафедры неорганической химии, профессор.

С сентября 1970 г. работал также в Ивановском энергетическом институте в должности заведующего кафедрой химии.

В 1981- 1986 гг. В.К. Абросимов являлся заместителем директора по научной работе ИХНР АН СССР, с 1986 года был заведующим лабораторией «Термодинамика растворов неэлектролитов и биологически активных веществ» ИХР РАН.

Более 10 лет профессор Абросимов возглавлял кафедру химии в Ивановском государственном энергетическом университете, был профессором кафедры химии ИГЭУ.

Но все эти годы Владимир Ксенофонтович был тесно связан с родным химико-технологическим университетом – он являлся членом диссертационного совета Д 212.063.06, председателем ГАК на защитах выпускных квалификационных работ бакалавров и магистрантов по направлению «Химия», членом редакционного совета журнала «Известия вузов. Химия и химическая технология».

Один из первых учеников Геннадия Алексеевича Крестова В.К. Абросимов продолжил начатые совместно с учителем работы в области структурно-термодинамической теории сольватации. За более чем сорокалетний период научной деятельности им были получены результаты, оказавшие существенное влияние на дальнейшее развитие теории растворов.

Абросимов В.К. соавтор 9 коллективных монографий, 120 статей (всего более 250 публикаций). Руководил диссертационными работами аспирантов и соискателей. Подготовил одного доктора и 10 кандидатов химических наук.

В.К. Абросимов за время работы в системе высшего образования зарекомендовал себя как высококвалифицированный научный работник и педагог, способный руководитель коллектива.

Чтение лекций В.К. Абросимова отмечалось высоким теоретическим уровнем. Он являлся автором и редактором «Практикума по общей химии», руководил научным направлением, входящим в координационный план АН СССР, опубликовал более 50 научных и методических работ.

В.К. Абросимов был принципиальным, требовательным членом совета по защитам докторских и кандидатских диссертаций, обладающим глубокими знаниями, что позволяло ему вести научную дискуссию, выявлять как сильные стороны, так и «просчеты» диссертантов. И вместе с тем Владимир Ксенофонтович всегда был объективен и справедлив, а поэтому его выступления на совете - лаконичны, ярки, убедительны. Сотни специалистов, бакалавров, магистров химии испытали на защитах своих дипломов и квалификационных работ его неизменную поддержку, внимание, объективную оценку. Он как опытный «рефери» на ринге умело строил дискуссию членов совета, тактично решал проблемы, возникавшие между волнующимися дипломниками и «маститыми» членами ГАК. Его замечания выпускникам были всегда актуальны и полезны, а его советы – доброжелательны, а иногда и судьбоносны...

Список наиболее значимых публикаций В.К. Абросимова:

1. Ivanov, EV; Lebedeva, EY; **Abrosimov, VK**; Baranov, VV; Gazieva, GA; Kravchenko, AN.
Standard molar volumes and expansibilities of 1,3-alkyl-N-substituted achiral glycolurils in water at $T = (278.15 \text{ to } 318.15) \text{ K}$ and $p=0.1 \text{ MPa}$: A comparative analysis
JOURNAL OF CHEMICAL THERMODYNAMICS 89, 270-277 (2015)
2. Ivanov, EV; Lebedeva, EY; **Abrosimov, VK**.
Standard Volumetric Properties of Tetra-N-ethylglycoluril (Bicaret) in Ordinary and Heavy Water at Temperatures from $(278.15 \text{ to } 318.15) \text{ K}$ and Ambient Pressure
JOURNAL OF CHEMICAL AND ENGINEERING DATA 60(7), 2079-2089 (2015)
3. Ivanov, EV; Batov, DV; Gazieva, GA; Kravchenko, AN; **Abrosimov, VK**.
D₂O-H₂O solvent isotope effects on the enthalpies of bicaret hydration and dilution of its aqueous solutions at different temperatures
THERMOCHIMICA ACTA 590, 145-150 (2014)
4. Ivanov, EV; Batov, DV; **Abrosimov, VK**.
D₂O-H₂O solvent isotope effects on the enthalpy of 1,1,3,3-tetramethyl-2-thiourea hydration at temperatures from $(278.15 \text{ to } 313.15) \text{ K}$ and ambient pressure
THERMOCHIMICA ACTA 590, 206-209 (2014)
5. Ivanov, EV; Batov, DV; Baranov, VV; Kravchenko, AN; **Abrosimov, VK**.
Standard enthalpies and heat capacities of solution of 2,4-dimethyl- and 2,4-diethylglycolurils in water at temperatures from $(278.15 \text{ to } 313.15) \text{ K}$
THERMOCHIMICA ACTA 586, 72-74 (2014)
6. **Abrosimov, VK**; Lebedeva, EY.
Solubility and thermodynamics of dissolution of helium in water at gas partial pressures of 0.1-100 MPa within a temperature range of 278-353 K
RUSSIAN JOURNAL OF INORGANIC CHEMISTRY 58(7), 808-812 (2013)
7. **Abrosimov, VK**; Lebedeva, EY.
Chiral effect in the sechenov parameters of argon solubility in aqueous alpha-valine and alpha-phenylalanine solutions
JOURNAL OF STRUCTURAL CHEMISTRY 54(4), 724-729 (2013)
8. Ivanov, EV; **Abrosimov, VK**.
Apparent Molar Volumes and Expansibilities of Thiourea, 1,3-Dimethylurea, and 1,3-Dimethylthiourea in Water at Temperatures from $T = (278.15 \text{ to } 318.15) \text{ K}$ and Atmospheric Pressure
JOURNAL OF CHEMICAL AND ENGINEERING DATA 58(5), 1103-1111 (2013)
9. Ivanov, EV; **Abrosimov, VK**; Lebedeva, EY.
Apparent molar volumes and expansibilities of H₂O and D₂O in N,N-dimethylformamide and N,N-dimethylacetamide in the range of $T = (278.15 \text{ to } 318.15) \text{ K}$ at $p=0.1 \text{ MPa}$: A comparative analysis
JOURNAL OF CHEMICAL THERMODYNAMICS 53, 131-139 (2012)
10. Ivanov, EV; Lebedeva, EY; **Abrosimov, VK**; Ivanova, NG.
Densimetric Studies of Binary Solutions Involving H₂O or D₂O as a Solute in Dimethylsulfoxide at Temperatures from $(293.15 \text{ to } 328.15) \text{ K}$ and Atmospheric Pressure
JOURNAL OF SOLUTION CHEMISTRY 41(8), 1311-1333 (2012)
11. **Abrosimov, VK**; Lebedeva, EY.
Effects of electrolyte concentration, temperature, and pressure on the sechenov

- salt-effect parameter: He-NaCl-H₂O system
JOURNAL OF STRUCTURAL CHEMISTRY 53(3), 487-494 (2012)
12. Ivanov, EV; Lebedeva, EY; **Abrosimov, VK**.
Volume-related interaction parameters for dilute solutions of 1,3-dimethylpropyleneurea in normal and heavy water between 278.15 K and 318.15 K
THERMOCHIMICA ACTA 513(1-2), 26-32 (2011)
13. **Abrosimov, V. K.**; Ivanov, E. V.; Tsivadze, A. Y..
Densimetry of solutions
Theoretical and Experimental Methods of Solution Chemistry , 425 (2011)
14. Ivanov, EV; Lebedeva, EY; **Abrosimov, VK**.
Volume-related interaction parameters for dilute solutions of tetramethylurea in normal and heavy water between 278.15 K and 318.15K
THERMOCHIMICA ACTA 500(1-2), 38-43 (2010)
15. Ivanov, EV; Lebedeva, EY; **Abrosimov, VK**.
Temperature Dependence of Speeds of Sound for Solutions of Some Tetraalkylammonium Bromides in H₂O and D₂O at Temperatures in the Range (283.15 to 338.15) K
JOURNAL OF CHEMICAL AND ENGINEERING DATA 54(9), 2777-2779 (2009)
16. Ivanov, EV; Smirnov, VI; **Abrosimov, VK**.
Effect of intramolecular cyclization on the enthalpy of dissolution (solvation) of N,N'-dimethylurea in water and methanol at 298.15 K
RUSSIAN CHEMICAL BULLETIN 58(4), 854-856 (2009)
17. Ivanov, EV; Smirnov, VI; **Abrosimov, VK**.
Effect of intramolecular cyclization on the enthalpies of solvation of tetramethylurea in water and alkanols at 298.15 K (vol 475, pg 72, 2008)
THERMOCHIMICA ACTA 479(1-2), 62-63 (2008)
18. Ivanov, EV; Smirnov, VI; **Abrosimov, VK**.
Effect of intramolecular cyclization on the enthalpies of solvation of tetramethylurea in water and alkanols at 298.15 K
THERMOCHIMICA ACTA 475(1-2), 72-75 (2008)
19. Ivanov, EV; **Abrosimov, VK**; Lebedeva, EY.
Volumetric properties of dilute solutions of water in acetone between 288.15 and 318.15 k
JOURNAL OF SOLUTION CHEMISTRY 37(9), 1261-1270 (2008)
20. **Abrosimov, VK**; Ivanov, EV; Lebedeva, EY.
Influence of water microimpurities on acetone structure: Volume effects of H(2)O and D(2)O solvation
DOKLADY PHYSICAL CHEMISTRY 421, 195-198 (2008)
21. Ivanov, EV; **Abrosimov, VK**; Smirnov, VI.
Enthalpies of solution of 1,1,3,3-tetramethylurea in normal and branched alkanols (C-2-C-4) at 298.15 K
JOURNAL OF CHEMICAL THERMODYNAMICS 39(12), 1614-1619 (2007)
22. Ivanov, EV; **Abrosimov, VK**; Smirnov, VI.
Enthalpies of solution of tetramethyl-bis-urea (Mebicarum) in amides and acetone at 298.15 K
THERMOCHIMICA ACTA 463(1-2), 27-31 (2007)
23. Ivanov, EV; **Abrosimov, VK**; Ivanova, NG; Lebedeva, EY.
Temperature effect on the volume properties of a bisurea aqueous solutions
RUSSIAN CHEMICAL BULLETIN 56(10), 1996-1999 (2007)
24. **Abrosimov, VK**; Ivanov, EV; Smirnov, VI.
Differentiating influence of alkanol isomerization on the solvation of tetramethyl-

- bis-urea (the drug mebicarum)
DOKLADY PHYSICAL CHEMISTRY 413, 84-86 (2007)
