

Вадим Михайлович Иванов

(16 июля 1936 г. - 5 мая 2016 г.)

5 мая 2016 года скончался доктор химических наук, профессор кафедры аналитической химии МГУ имени М.В. Ломоносова, Заслуженный профессор МГУ Вадим Михайлович Иванов.

В.М. Иванов родился 16 июля 1936 г. в Москве в семье военнослужащего. По окончании химического факультета МГУ он неразрывно связал свою жизнь с Московским университетом. Работал старшим лаборантом, ассистентом, доцентом (1967 - 1988), профессором (с 1988 г.). В 1964 г. защитил кандидатскую диссертацию «Пиридиновые азосоединения как реагенты для фотометрических определений и как комплексонометрические индикаторы», а в 1984 г. докторскую диссертацию «Гетероциклические азосоединения как анаболические реагенты: теория действия, закономерности комплексообразования; аналитическое применение».

Научные интересы В.М. Иванова были сосредоточены на теории действия и практическом применении органических аналитических реагентов (особенно гетероциклических азосоединений), в том числе новых, исследовано более 70 реагентов в водных и водно-органических средах, в свободном и иммобилизованном состояниях, в тест-методах, цветометрии, спектроскопии диффузного отражения. Разработано большое число методик различного аналитического применения. В.М. Иванов автор и соавтор 27 авторских свидетельств и патентов СССР и РФ, около 600 статей, более 50 обзоров, 23 учебников и монографий. Был членом трех комиссий НСАХ РАН, учебно-методического совета по специальности «Химия» УМО университетов России, заместителем главного редактора и научным редактором «Журнала Аналитической химии», редактором «Реферативного журнала Химия», редактором-консультантом Химической энциклопедии, членом редколлегии журнала «Вестник Московского университета. Серия 2. Химия». В течение многих лет В.М. Иванов являлся ответственным секретарем «Журнала аналитической химии», членом редколлегий серии монографий «Аналитическая химия элементов» и «Аналитические реагенты», членом бюро Московского отделения ВХО им. Д.И. Менделеева, председателем жюри Московской городской и областной школьных олимпиад по химии (1989 – 1991 гг.). Лауреат премий ВХО им. Д.И. Менделеева (1972, 1977, 1979).

В.М. Иванов подготовил 36 кандидатов наук, консультировал 5 докторантов, выпустил более 50 дипломников, читал лекции в различных университетах, в том числе зарубежных. Он – один из авторов «Руководства по аналитической химии редких элементов» (1966, 1987), переведенного на английский,

польский, вьетнамский языки, соавтор учебника по аналитической химии «основы аналитической химии» (6 изданий). Редактор ряда монографий и методических руководств, деятельный рецензент. Удостоен почетного звания «Заслуженный профессор МГУ» (1996). Циклы научных работ В.М. Иванова удостоены премий ВХО им. Д.И. Менделеева (1972, 1977, 1979), премий Международной академической издательской компании «Наука/Интерпериодика» (2000, 2002).

Память о Вадиме Михайловиче Иванове навсегда сохранится в сердцах тех, знавших его.
