

Кляцкин Валерий Исаакович

(11 апреля 1940 г. – 2017 г.)

Главный научный сотрудник Института физики атмосферы им. А. М. Обухова РАН с 1992 года.

Доктор физико-математических наук (1975) (Теоретическая физика).
Профессор по специальности «Теоретическая и математическая физика», Академия наук СССР (1988).

Основные темы научной работы: стохастические уравнения, теория и их приложения в акустике, гидродинамике, магнитной гидродинамике и радиофизике.

Член редакционной коллегии журнала *Waves in Random Media Journal* - 1988 -1992; Член редакционной коллегии журнала *Известия Академии наук, Физика атмосферы и океана* с 1997 года.

Лауреат государственной Премии СССР 1990 г. за исследования в области распространения волн в турбулентной атмосфере (1964-1980).

Текст составлен по материалам [CV](#) .
