

Николай Сергеевич Голубев

(17.01.1947 – 26.01.2016)

26 января 2016 года скоропостижно скончался Николай Сергеевич Голубев, долгие годы проработавший на кафедре молекулярной спектроскопии физического факультета Санкт-Петербургского государственного университета.

Николай Сергеевич был крупным специалистом в спектроскопии ядерного магнитного резонанса и одним из основателей метода низкотемпературной спектроскопии ядерного магнитного резонанса (ЯМР) растворов. Его работы были широко известны научной общественности, он пользовался высочайшим авторитетом среди специалистов.

Николай Сергеевич был необычайно талантливым человеком, обладавшим широким научным кругозором, способностью чувствовать новые перспективные направления исследований и успешно решать поставленные задачи.
